What makes Royal Farms Fried Chicken so good?

Is it because Royal Farms uses only fresh, never frozen chicken? Or is it because our chicken is handbreaded with our own blend of special spices? Or maybe it's because we pressure cook chicken around the clock to ensure a fresh, juicy, great tasting product anytime?

The answer is all of the above. That's right, at Royal Farms, we take chicken seriously. Very seriously. We know that our customers have come to expect great tasting chicken from Royal Farms and we go to great lengths to make sure our chicken is the best there is.

If you needed more convincing, **Food and Wine Magazine** calls us **"... best fast-food fried chicken..."!**
